

BRITE GLOBAL

Brite Global is a premier Microsoft Dynamics consulting firm, specializing in the deployment and implementation of Microsoft Dynamics CRM and Custom Software Solutions for enterprise and mid-sized businesses, that allows companies to increase their business in the sales, marketing and customer service areas.

When choosing your Microsoft Dynamics integration partner, Brite Global is a preferred choice among companies, that want a low-risk implementation driven by a team of certified professionals with proven expertise. By using our expertise and a proven deployment model, we deliver projects that guarantee results.

Brite Global has successfully implemented complex software solutions and Microsoft Dynamics CRM customizations and extended development projects with a proven track record of customer successes. We have been working with Microsoft developer tools and business solutions from their earlier versions and have attained complete knowledge of the different products and their capabilities. This allows us to provide the customer custom solutions that are not available out-of-the-box.

As a **Microsoft Gold Certified Partner**, and a proven expert in Custom Development Solutions, Web Development Solutions, Content Management Systems and Microsoft Dynamics CRM, Brite Global has procured access to beta versions and evaluations of future releases of Microsoft software, allowing us to contribute with the enhancement of the functionality of the product and the platform in its future releases.

We have specific industry expertise by tailoring our applications to a variety of industries, including:

- Government and Not-For-Profit
- Financial Services
- Media and Entertainment
- Healthcare and Health Services
- Professional Services
- Real Estate and Property Management

We use proven project management tools customized for the size and type of project being implemented in order to provide our customers with a great project experience and an expectations, by that providing with clear project scopes, timelines and deliverables, all customized to deliver the specific requirements suites for your business.
