

BRITE GLOBAL, INC.

Brite Global Implementation Practice

Brite Global's consultants specialize in small to medium-sized business implementations. We deliver implementation management services, process engineering, software selections, hardware requirements, data interfaces, application design, and customized user training. Brite Global has a library of supplemental modules and customizations that meet the unique needs of organizations and specific vertical markets.

Microsoft Business Solutions Practice

The success of your company is directly related to the success of the people who work for you. Microsoft Business Solutions has created a line of integrated, adaptable business management solutions that enable your people to make important business decisions with greater confidence. The Microsoft Dynamics product family works like and with familiar Microsoft software – easing adoption and reducing risks inherent with implementing a new solution. These solutions automate and streamline financial, customer relationship and supply chain processes in a way that helps you drive business success.

Our Firm

Brite Global is a unique and highly dedicated professional services company with a high rate of successful project implementations. To keep that record strong, our clients have come to expect a higher standard of service from our team. We are known for our deep expertise in areas of enterprise business applications, web solutions and custom software.

Our team at Brite Global provides expert guidance on business processes and architecture to help our clients get the most out of their investment. We specialize in Microsoft Dynamics Business Solutions, Application Integration, Web Portals and Custom Application Development. Through our proven best practices approach, we repeatedly deliver projects on time and under budget. As a Microsoft Certified Partner, our team of Certified Professionals has been helping small and medium-sized firms for over 10 years.
